About Hope Springs Dairy

Jeff and Lysa Severson didn't intend to become dairy farmers when they got some dairy goats in 2009. Originally they had intended to just have some milk for the family. Like any community driven story, Jeff & Lysa slowly started adding more goats and a dairy cow here and there, providing milk and growing their herd and by 2013 they decided they wanted to really dedicate time to being a dairy operation and by 2014 they were up and running full time. Now they welcome their herd share members to enjoy raw milk, homemade mozzarella and yogurt. Visit their website to find out how you can become members of their herd.

"We want to bring nutrition back into peoples lives."

What drives you?

"What keeps me going is the community that surrounds farming. We have the best herd share members and we've seen such supportive people within the community.

Do your kids help on the farm?

"Yes, they take pride in it. One of our children helps bottlefeed cows every morning and another milks once a week. They're learning through it and they are proud of themselves."

Hope Springs Dairy
HDIFFA Partner Since 2017
