Uses organic practices

## About Paradise Produce

Although Terri Buck started Paradise Produce just a few years ago, she and her husband Leroy have been farming in Madras since 2005 when they purchased the 55 year old Buck family farm. The garden is Terri's project which allows her to sell fresh veggies at their Farm Stand on Adams Road and grow for her family. She preserves her own garden goodies for the winter and sells them in bulk for the general public.

*"My drive is to get up and see what grew overnight."*

## Why become a producer?

"I like to eat. If you want to eat then you've got to get up and work. I also like being outside and this work is incredibly rewarding."

## Why choose a farm life?

"I loved raising a family here. You learn to appreciate things because you worked hard for them. I feel sorry for kids who just have TV and video games, a lot of kids would benefit from getting their hands dirty."
